

Avery Sun Ray Lister

has pivot pole operated by landing lever, making it easy to hold to the row. When the bottom is raised full height, hopper tilts out of gear—no clutch to get out of fix.

An independent foot lever throws hopper out of gear without raising bottom. Lifting lever has a foot stirrup at the bottom, making it easy for a boy to lift bottom.

Simple, accurate planting device with extra large plates, giving each hole a chance to fill—no skipping. The rolling coupler is larger than you will find on most listers. Bottom of highest quality extra hard steel.

Come in and see the SUN RAY lister.
